SIR:

I am writting you because, I live with a deaf person.  
she has to use a TTY machine, VHS machine and a television for  
communication with the outside world. If you take this services  
away from her. her world will stop..

If you think it is easy living with a deaf person,  
Please come and live and try to communicate with her without  
the services you want to take way from her.

She uses the machine to call the FIRE, AMBULANCE AND  
POLICE, How will she call for HELP if you take this away from  
her. Are you going to come and watch over her .

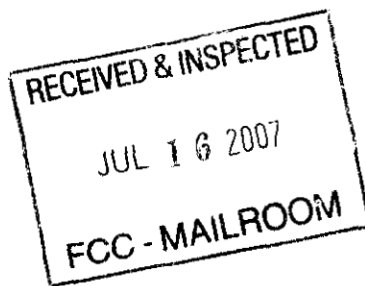

THANK YOU

SIR.

I have a friend who is deaf and she needs the service  
you want to take away from her. It will be a sad day when you  
take the services away from a deaf person, what will be next for  
handicapped person who needs the services you want to take away.

THANK YOU.
